SECTION 4 **FOLDING** OF DRAWING PRINTS

[Based on IS 11664 : 1986]

4.1 Scope

This section covers two methods of **folding** of drawing prints.

4.1.1 The first method is intended for drawing prints to be filed or bound, while the second method is intended for prints to be kept individually in filing cabinet.

4.2 Basic Principles

The basic principles in each of the above methods are to ensure that:

- a) all large prints of sizes higher than A4 are folded to A4 sizes;

- b) the title blocks of all the folded prints appear in topmost position; and

- c) the bottom right corner shall be outermost visible section and shall have a width not less than 190 mm.

4.3 Depending on the method of **folding** adopted, suitable **folding** marks are to be introduced in the tracing sheets as guide.

4.4 Method of **Folding** of Drawing Prints

The methods recommended for **folding** are indicated in Fig. 4.1 and 4.2
